# RMG FABRICS

House of Fabrics

Greige | Dyed | Printed | Yarn-Dyed

---

BC

# ABOUT US

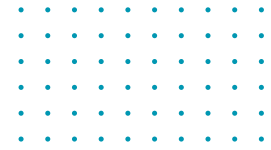

Started as a greige sourcing concern in 2003, today RMG Fabrics has transformed into a mill-to-factory fabric house providing end-to-end services to domestic and export garment houses across India, Middle East and Bangladesh.

With over 20 years of experience, we have a robust ecosystem of supplying greige, dyed, printed and yarn-dyed fabrics across various blends and weights. Our expertise lies in fabrics meant for men and women upper wear.

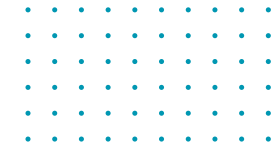

Understanding the criticality of turn arounds and commitment to timelines associated with manufacturing, we take pride in our unmatched speeds right from sampling to finished goods, serving every step in your sourcing needs.

# ABOUT OUR LEADERSHIP

Mr. Sanjay Gupta, our Founder and Managing Partner, has been serving the Indian textile industry for 4 decades since 1983.

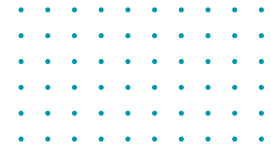

Mr. Sanjay completed his Diploma in Textile Engineering from the Synthetic & Art Silk Mills' Research Association (Sasmira). He was then associated with leading export houses and fabric mills across India in various capacities for 20 years before finally starting his own trading firm in 2003.

His hands-on experience in working across both ends of the ecosystem coupled with his technical expertise form the foundation of our company ethos- Provide unmatched sourcing with the fastest turn around.

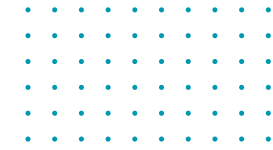

He brings to the table a wide network of premium fabric suppliers, skilled process hubs, and technical know-how to develop even the most complicated constructions and requirements.

# OUR FABRIC PORTFOLIO

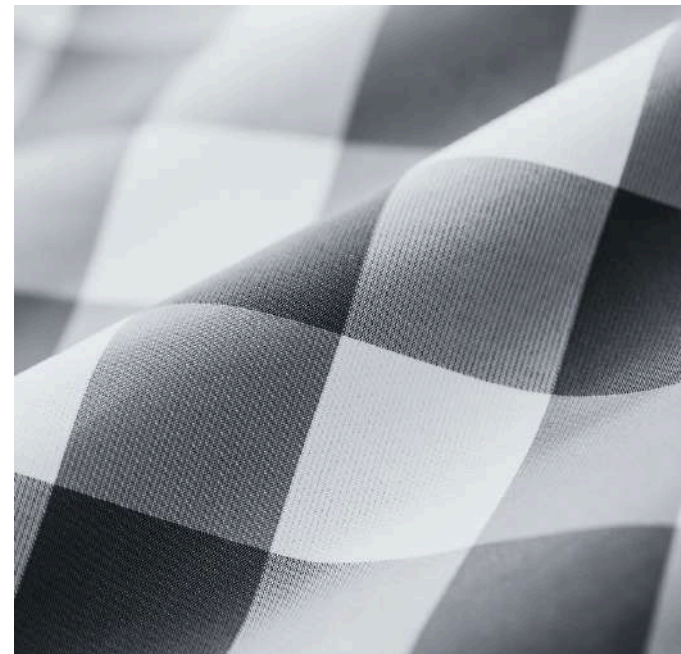

## COTTONS

A staple in upperwear, our cotton fabrics portfolio is the widest consisting of various blends, weights, structures, processes and finishes. Sourced from the prestigious mills of southern India, finished at leading process houses in the west.

## VISCOSE

We boast a very large and comprehensive portfolio of viscose, capable of catering to any construction requirement including eco sustainable fibers. Our expertise lies in the vivid processes and structures to get the specific requirements right.

## POLYCOTTONS

A must have for shirting, our polycotton offering consists of a wide variety of dyed, printed and yarn-dyed qualities of various blends. Associated with some of the most prominent process houses in India, we offer almost all finished specifications.

## POLYESTERS

Keeping up with the necessity of diversity in women's garments, our 100% polyester portfolio spans across different weights, structures, and finishes providing a comprehensive range of selection including specialized dyeing and printing.

## LINENS

Undoubtedly the crown jewel of fibers, we specialize in pure linen and linen blends of the highest quality. Our capability includes developing customized blends as per specifications and processing them to match customer requirements.

01.

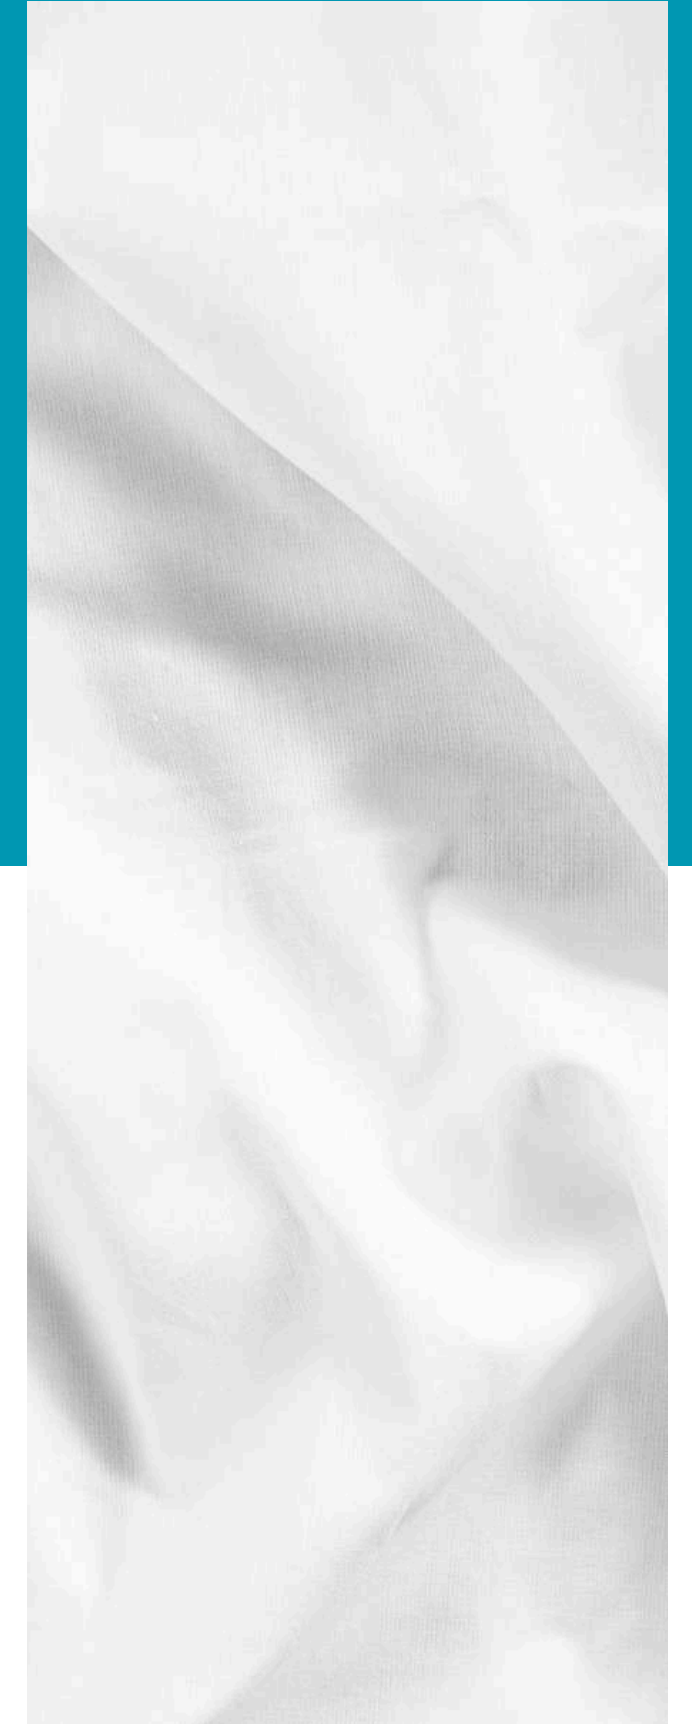

**Weights** spanning from heavy drills to fine voiles.  
Greige, dyed, printed, yarn-dyed

02.

**Structures** including greige, dobbys, jacquards, slubs, high-twist crepe, schiffli embroidery and double cloth

03.

**Specialized Blends** including cotton-lycra, cotton-linen, cotton-viscose and poly-blends

BC

---

# VISCOSE PORTFOLIO

01.

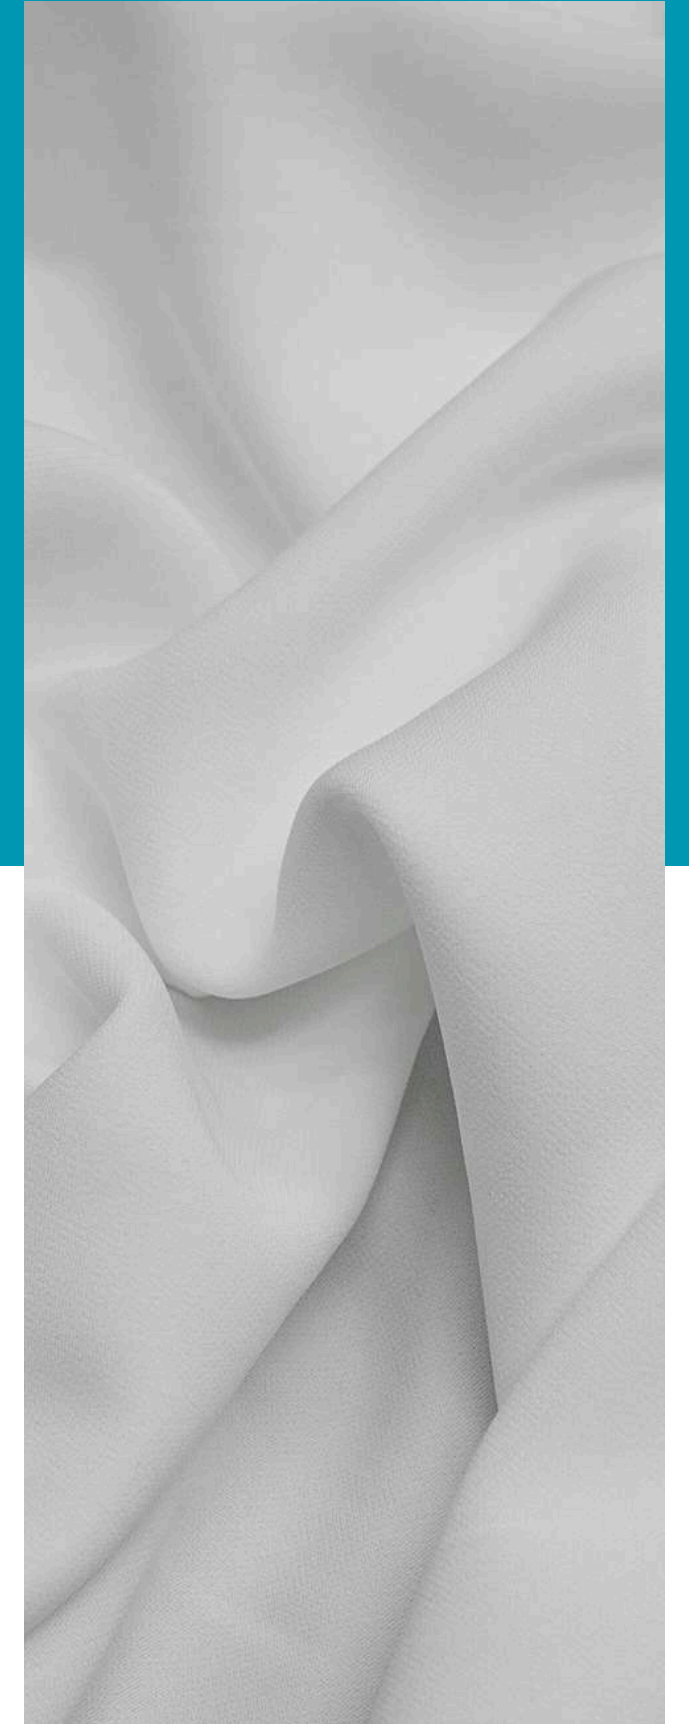

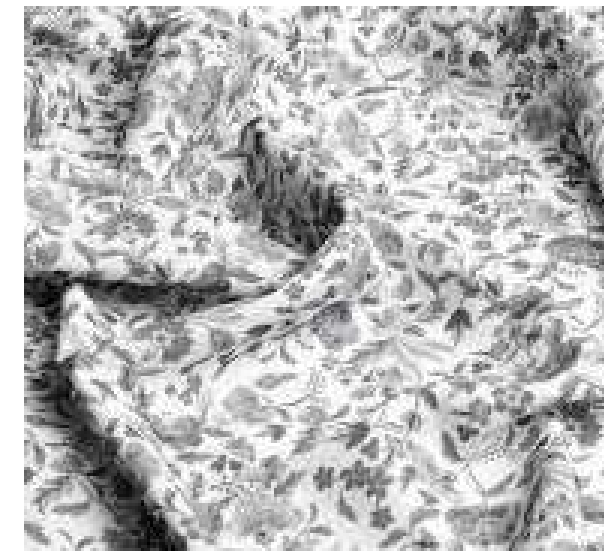

**Eco Fibers** including Liva Eco™, EcoVero™, Tencel™ and Modal.  
Greige, dyed, printed, yarn-dyed

02.

**Structures** including greige, dobbys, slubs, high-twist crepe,  
and schiffli embroidery

03.

**Specialized Dying and Printing** on high-twist crepe and any  
other structure

BC

---

# POLYCOTTON PORTFOLIO

01.

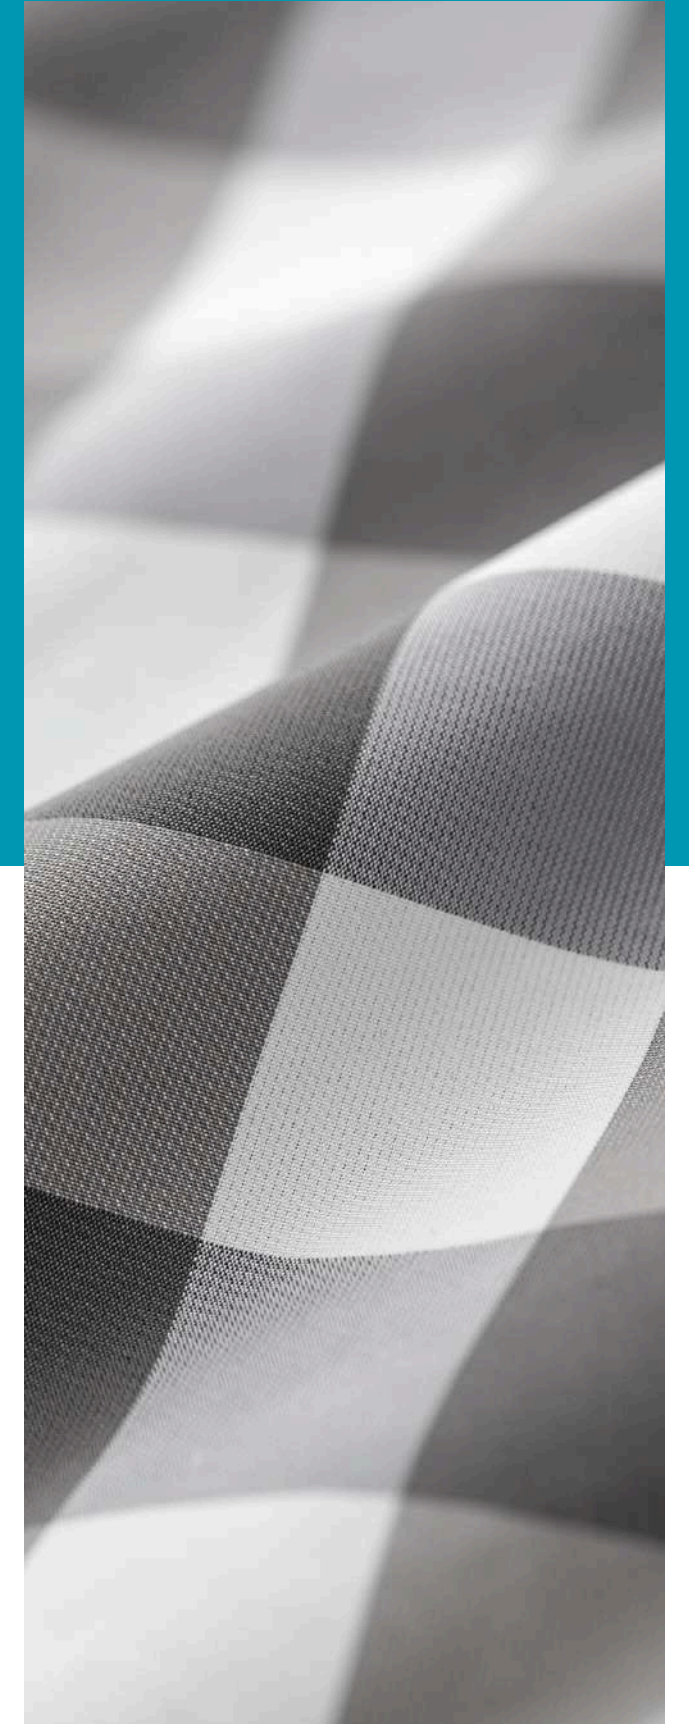

**Processed Fabrics** including dyed and printed along with yarn-dyeds

02.

**Structures** including checks, stripes, dobby, and slubs

03.

**High weight yarn-dyed** suitable for brushing

BC

---

# POLYESTER PORTFOLIO

01.

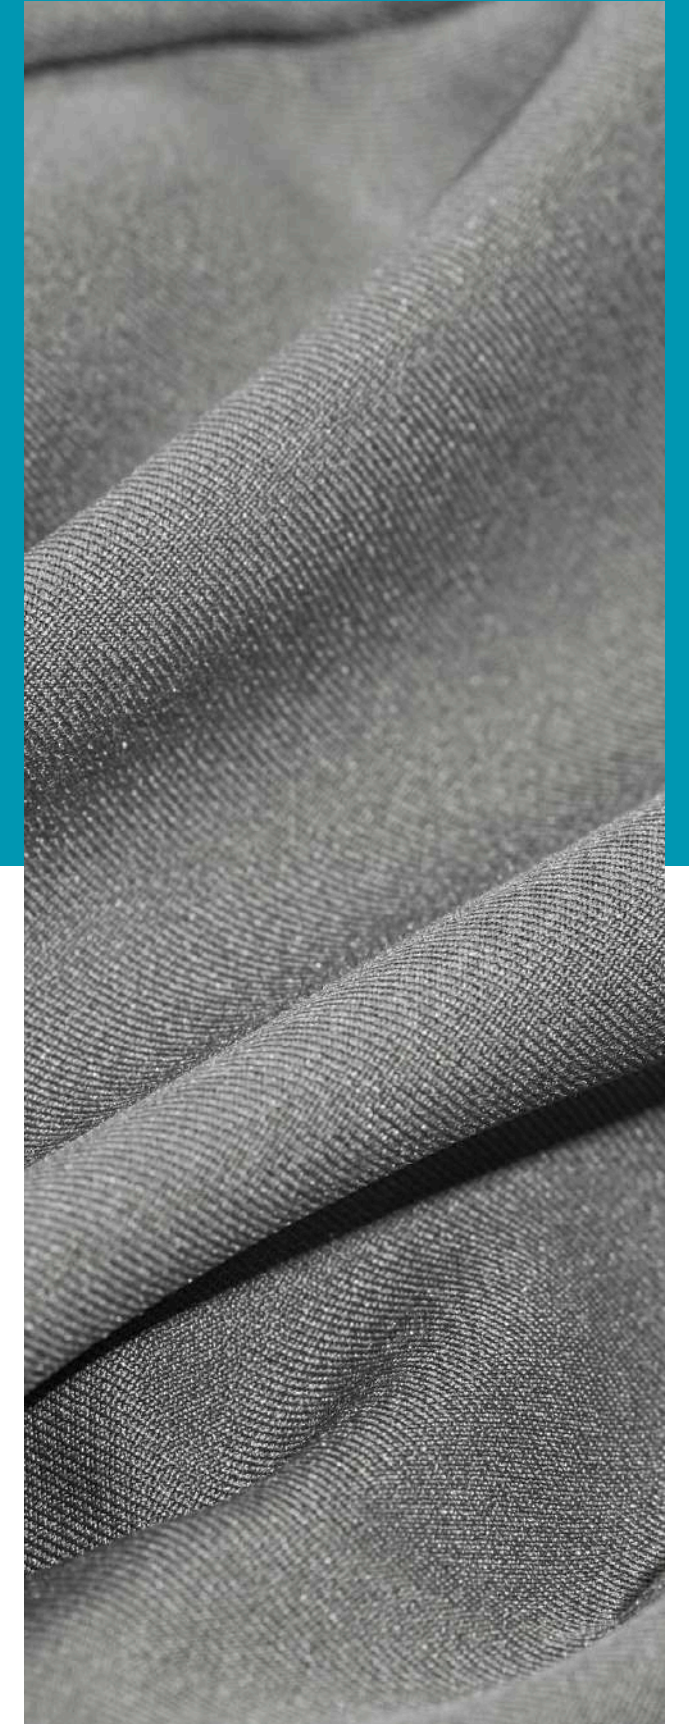

**Weights** spanning from 50 GSM to 250 GSM.  
Light chiffons and georgettes to heavy poly moss

02.

**Structures** including satins, high-twist crepe, brasso  
burnouts , dobbys, and slubs

03.

**Specialized Dying and Printing** including digital prints, foil  
prints and water repellant coating across fabrics

BC

---

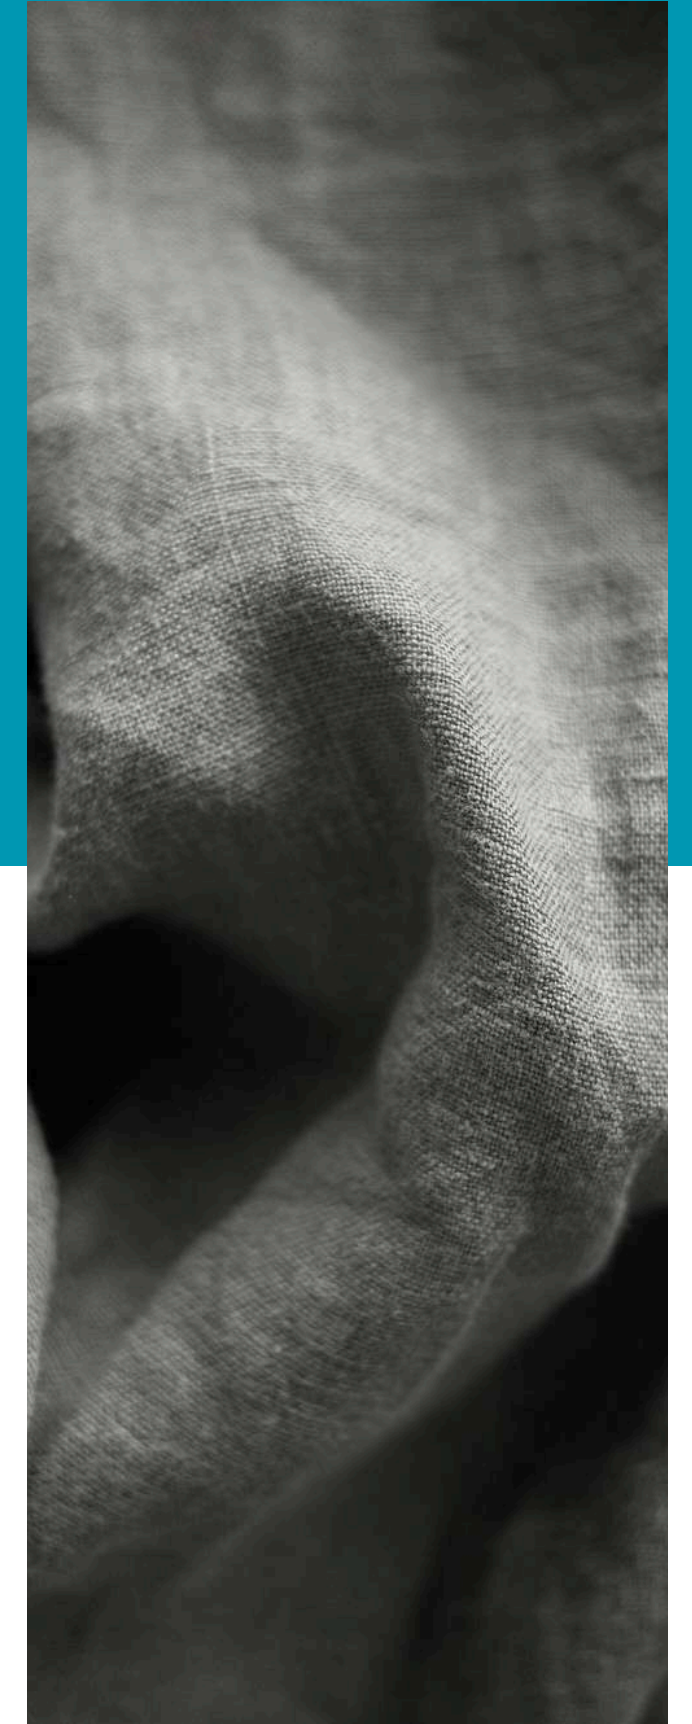

# LINEN PORTFOLIO

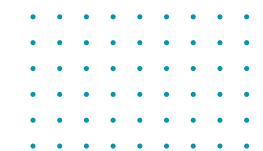

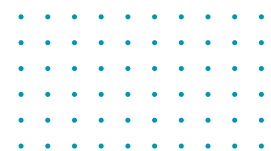

01.

**Weights** including 135 GSM to 250 GSM  
Greige, dyed, and printed

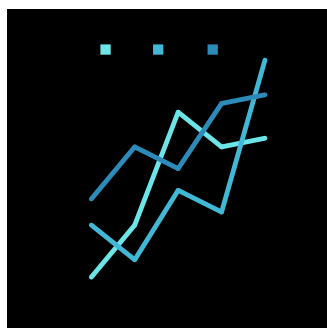

02.

**Specialized Blends** ranging from 20% up to 100% including  
pure linen, cotton-linen, and viscose-linen

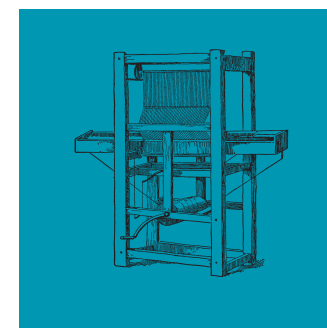

# VALUE ADDED SERVICE

## Trends Forecasting

Highly detailed trend reports on garment designs including styling, fabric structure, patterns, colors etc. based on market trends and consumer behavior analysis.

## Customized Developments

Technical expertise to help develop any fabric customization at minimum possible costing based on the required specifications.

## Sustainable Fibers Certification

Certified Birla Cellulose and Lenzing made sustainable fibers fabrics- Liva Eco™, EcoVero™, Tencel™. Consultation on availing branding services including hangtags and other resources.

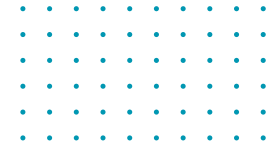

## Sampling and Quality Reports

High speed sampling developments including dying labdips, print strike-offs and yarn-dyed pitlooms across fabric constructions supported by quality reports.
